MISSION
We foster social and learning environments that enhance students’ lives, preparing them for lifelong success.

VISION
We create an environment where students feel they matter.

CORE VALUES
The UNL Division of Student Affairs embraces the University of Nebraska-Lincoln Core Values of:
  Learning that prepares students for lifetime success and leadership;
  Excellence pursued without compromise;
  Achievement supported by a climate that celebrates each person’s success;
  Diversity of ideas and people;
  Engagement with academic, business, and civic communities throughout Nebraska and the world;
  Research and creative activity that informs teaching, fosters discovery, and contributes to the economic prosperity and our quality of life;
  Stewardship of the human, financial, and physical resources committed to our care.

STRATEGIC PLAN
The UNL Division of Student Affairs is integral to the University in its dedicated mission to teaching, research, and service. Our programs, services, facilities, and dedicated staff complement the University’s mission and more specifically, the 2020 target goals related to enrollment, the six-year graduation rate, and research funding. The Division of Student Affairs Strategic Plan is designed not only to be responsive to these institutional strategic indicators but also to matters of national significance. The entire plan is available at http://go.unl.edu/sa-strategicplan.

STRATEGIC INITIATIVE #1
Foster a campus culture that promotes student leadership, wellness and personal and social responsibility.

STRATEGIC INITIATIVE #2
Establish a transparent system of accountability that advances opportunities for continuous improvement.

STRATEGIC INITIATIVE #3
Secure and manage the human, financial and physical resources necessary to support our mission.

STRATEGIC INITIATIVE #4
Communicate the educational value of engagement outside the classroom and construct a common Student Affairs identity.
STATEMENT ON DIVERSITY

As the University of Nebraska-Lincoln community becomes more diverse, we can expect individual and group needs to change. Student Affairs departments must stand ready to address these changing needs. Our commitment is to be proactive in our support of diversity and to effectively address any issues and concerns that might arise as we become a more pluralistic community. All Student Affairs staff members must help create an environment in which all members of the university community will find support for their individual growth and development.

To achieve this goal, the Vice Chancellor for Student Affairs expects that significant leadership will be provided by Student Affairs Directors to ensure that all forms of intolerance are challenged and appropriate changes enacted. Throughout the Division, critical inquiry of existing programs and policies, alternative administrative structures and hiring models, continuing educational programs, and viable support systems for all staff and students must become pervasive if true diversity is to be realized. As a formal part of the annual performance evaluation process, each Student Affairs Director will compile a report presenting the efforts and results of departmental activities that support and enhance this goal.

We can help to achieve this goal by becoming actively involved in our support of every individual and by increasing our own and others’ appreciation for all cultures and beliefs. Among the ways in which this goal may be accomplished are:

- participating in programs and performances which illuminate the cultural heritage, traditions, and contributions of minority groups;
- becoming involved in university, community, state, and national minority organizations;
- critically reviewing and generating policies and procedures which are sensitive to the needs of all populations;
- confronting all forms of intolerance in the workplace;
- developing working relationships with people of diverse background and life experiences;
- serving as mentors, internship supervisors and supportive employers;
- acting to address minority under-representation in the Student Affairs staff;
- proactively supporting the application of minority associates for university positions; and
- serving as strong advocates for minority employment and promotion.
STATEMENT ON STAFF/STUDENT SEXUAL HARRASSMENT/SEXUAL INVOLVEMENT

As employees of the State of Nebraska and the University of Nebraska-Lincoln, all personnel under the auspices of the Division of Student Affairs, including student employees, are in a position of “public trust.” It is expected that conduct while on the job (and while off the job, if such conduct can be construed to be carried back to the workplace as part of one’s job) will be such that all staff will be above reproach with respect to sexual harassment and sexual involvement.

Staff should recognize that those working in the Student Affairs Division are often placed in positions of unique affiliation with students- as advisors to individuals and groups, as traveling companions to professional and student events, as supervisors of residential living units, and as employees who are called upon to exercise their best professional judgments with students who may be vulnerable, confused, and/or acting out. Staff conduct should, therefore, be guided by the following principles:

• The central guiding principle in all student-staff relationships must be to avoid the abuse of power and/or trust.

• All staff must ensure that students are provided access to services on a fair and equitable basis. This is difficult, at best, to accomplish if a sexual encounter, real or perceived, has occurred or is in process, simultaneous with evaluative or supervisory responsibilities.

• All staff must avoid any personal conflict of interest so that they can deal objectively and impartially with persons within and outside the institution. Staff must be aware that, in many instances, the appearance of a conflict of interest can be as damaging as an actual conflict.

• Staff must recognize that they exercise considerable influence over students and that sexual encounters with students can be considered suspect given the symmetric and often dependent nature of the student/staff relationship.

It is the policy of the University of Nebraska-Lincoln that sexual harassment by an employee of a student or another employee, including members of the same or opposite gender is prohibited and is subject to the procedures and sanctions contained in the UNL Discrimination and Harassment Policy, http://go.unl.edu/nondiscrimination. UNL policy requires the relinquishment of the supervisory or evaluative role when relationships exist between members of the university community who share sexual, romantic, or domestic relationships including, but not limited to, graduate assistants and students; supervisors and the employees they supervise; and student or employee and administrator, advisor, counselor, or residential staff member who has supervisory responsibility for that student or employee. By adhering to the above principles and policies, Student Affairs staff can be instrumental in the creation and maintenance of a positive campus environment. In an atmosphere of fair and equitable treatment, all members of the UNL Community benefit.

CHILDREN’S CENTER

MISSION
The UNL Children’s Center provides high quality early childhood education for children 6 weeks to Kindergarten.

To meet our mission...
- We hire highly qualified, educated teaching staff. Two full-time teachers are scheduled in each classroom M-F during operating hours. Ideally, one full-time teacher opens the classroom and works an eight hour day, overlapping with the second full-time teacher who will also work 8 hours and then close the room. This way we can provide good communication for all hours the center is open.
- We utilize Teaching Strategies – Gold, a highly recognized, developmentally appropriate curriculum; which supports all children regardless of their developmental abilities. Our teachers individualize children’s learning to meet their needs.
- We provide a safe, nurturing environment for children and their families which supports the child’s learning.
- We embrace the uniqueness of each family; we can learn as much from the children and their caregivers as they can from us. We welcome all families into the Center to share a favorite tradition as well as their family values.
- We have a partnership with families. Teachers will meet with families prior to the child’s first day in a new classroom. We believe that at least twice a year, families and teachers should sit down and assess the child’s learning together. We welcome collaboration between parents and teachers as often as caregivers request.

DESCRIPTION OF SERVICES
The Children’s Center serves faculty, staff, students and the community of Lincoln. Full-time care is provided for children ages 6 weeks to 5 years of age. The Center opens daily at 7:00 a.m. and closes at 6:00 p.m. The rates vary for students, faculty, staff and the community.

Further, we seek to impart an understanding of the importance of promoting a dignified environment for teaching and learning.
