In Spring 2012, UNL Student Affairs staff designed and implemented a campus-wide survey to learn more about our students’ level of engagement. In Spring 2013, a revised version of the survey was completed by 507 students.

**Purpose**

1. To learn more about our students’ level of engagement and involvement.
2. To help UNL faculty, staff, and parents gain insight into our students’ levels of satisfaction in their out-of-classroom UNL experiences and how our students’ lives are positively impacted through their participation in campus activities and/or organizations.
